Great Hosmer	Craftsbury	2001	Winona	Bristol	1986
Halls	Newbury	1991			

*Eurasian watermilfoil has been previously documented in Loves Marsh, Ninevah, Rescue and Seymour. As of November 2008 these populations are considered *controlled*, which is believed to be a result of rapid response, aggressive control programs and/or access area greeter programs.

Variable-leaf watermilfoil – Confirmed Locations (Total = 1)

- Halls Lake, Newbury, 2008

Water chestnut – Lakes/Ponds and Marshes – Confirmed Locations (Total = 13 plus 68 Lake Champlain and tributary sites)
