

# Net-captured phytoplankton biovolume ( $\mu\text{m}^3/\text{L}$ , millions) by taxonomic group Lake Champlain, 2006 - 2010

Bars represent median values for each station, calculated individually by division. Net mesh =  $63\mu\text{m}$ .

# Net-captured phytoplankton biovolume by taxonomic group Lake Champlain, 2006 - 2010

Bars represent median values for each station, calculated individually by division. Net mesh = 63 $\mu$ m.
