

**State of Vermont
Department of Environmental Conservation**

NOTICE OF TERMINATION

Purpose: Submission of this form is required under the below-referenced Individual Discharge Permit that authorized the discharge of stormwater runoff from a construction site. By filing this form, you are notifying the Department of Environmental Conservation that you no longer need coverage under this permit.

Permit Number: _____

Permittee (Owner): _____

Name of Project: _____

Construction Completion Date: _____

Date of Final Inspection: _____
(must be at least three months after final stabilization)

Certification:

As the Owner or Authorized Representative, I hereby certify that, for the construction activity that was authorized under this individual discharge permit, land disturbing activities at the site are finished and permanent stabilization of all disturbed areas on the site through the establishment of a vigorous vegetative cover, the implementation of other approved stabilization measures, and the graveling or paving of parking areas has been accomplished. I am aware that it is unlawful under the Clean Water Act to continue to discharge stormwater from this site without a discharge permit unless these circumstances exist and that there are substantial penalties for submitting false information. I also understand that the Erosion Prevention and Sediment Control Plan and records must be held for a period of three years after project completion under the terms of the discharge permit. I further understand that the submittal of this notice does not release the Owner from liability for any violations of the discharge permit, the Vermont Water Quality Standards, or the federal Clean Water Act.
