

**DESIGNER'S RESTATEMENT OF COMPLIANCE
GENERAL PERMIT 3-9010**

1. Permittee: _____
2. Permit Number: _____
3. Description/Name of Project: _____
4. Designer's Certification: Check only one of the following:

I hereby certify to the best of my knowledge and in the exercise of my reasonable professional judgment that:

___ The stormwater collection, treatment and control system authorized by the permit described in # 2 above is properly operating and maintained in accordance with the requirements of the permit.

___ The stormwater collection, treatment and control system authorized by the permit described in # 2 above is not operating properly and/or is not being maintained in accordance with the requirements of the permit. If so, please describe the operational and maintenance failures in detail below:

5. If you checked the second box in # 4 above, please provide a description of the steps that will be taken to bring the stormwater system back into compliance with the permit, and provide a schedule for taking such actions.
6. The failure to properly operate and maintain the stormwater collection, treatment and control system authorized in the permit described in #2 above constitutes a violation of state law and is subject to potential enforcement action by the Department of Environmental Conservation. Please take immediate steps to correct all violations.
