

**DESIGNER'S STATEMENT OF COMPLIANCE AT
COMPLETION OF CONSTRUCTION**

GENERAL PERMIT 3-9015

- 1. Permittee: _____
- 2. Permit Number: _____
- 3. Description/Name of Project: _____

4. Designer's Statement of Compliance: Please check the applicable boxes:

I hereby certify to the best of my knowledge and in the exercise of my reasonable professional judgment that:

The stormwater collection, treatment and control system authorized by the permit described in # 2 above was built in accordance with the requirements of that permit.

The stormwater collection, treatment and control system authorized by the permit described in #2 above is currently operating and maintained in compliance with that permit.

The stormwater collection, treatment and control system authorized by the permit described in #2 above was not built in accordance with the requirements of that permit. If so, please describe:

The stormwater collection, treatment and control system authorized by the permit described in # 2 above is currently not operating or maintained in compliance with that permit. If so, please describe:

5. If you checked the third or fourth boxes in # 4 above, please provide a description of the steps that will be taken to bring the stormwater system back into compliance with the permit, and provide a schedule for taking such actions.

6. The failure to properly construct, operate and maintain the stormwater collection, treatment and control system authorized in the permit described in #2 above constitutes a violation of state law and is subject to potential enforcement action by the Department of Environmental Conservation. Please take immediate steps to correct all violations.
